

SINTOGEAR 70

Synthetic base lubricant for all types of industrial gears

NORMS & SPECIFICATIONS

- DIN 51517-3 : CLP
- ISO 6743-6 : CKC

- US STEEL 224
- AGMA 250-04
- CREUSOT LOIRE K/KS

APPLICATIONS

- Reduction gear boxes working under heavy load and temperatures.
- Bearing lubrication by circulation or splash subjected to severe temperature variations

MAIN PROPERTIES

High viscosity index prevents overheating of oil and remains fluid at cold.

The antioxidant properties allow larger oil change intervals, far superior as obtained by conventional oils.

Extreme pressure properties increase the life of parts.

Perfectly miscible with mineral oils and is compatible with paints and the gaskets generally used.
